Bill Gates is a very important person in the computer industry .He has been the head of Microsoft Company for many years . He is also the richest person in America . How did he do it ?

He learned a lot from his parents. While Bill was going to school , his father went to collage , got a degree , and became a successful judge. From this he learned that you have to work hard if you want something. His mother was a very busy teacher , but she also enjoyed traveling . From this he learned that if you want to work hard and enjoy yourself at the same time , you have to make program.

When Bill was young he spent a lot of time on reading . But his childhood was not all work . He played a lot of sports . When he got older he spent more and more time working and playing on a computer. Before he was 20, Bill developed the world's first computer language for a computer program.He thought that every home was going to have a computer and every computer would require software (the program you put into a computer). He said," I am going to make my first million dollars on software by the time I'm 25." And he did it .

D. Read the following passage and check the answers. (4)

Poverty plays an important role in the phenomenon of child labor. Poor families around the world are forced to make even young children work to increase the family's total income. For poor families the small amount of a child's income or assistance at home is very important. It allows the family to survive from hunger and not to die. According to the 1997 UNICEF report a study of nine Latin American countries found that without the income of working children aged 13 to 17 the poverty rate could climb by 10 to 20 percent.
