E. Read the following passage and answer the questions that follow.

The health of a big, developed country's economy depends largely on its industry. Factories have to keep busy. They must produce and sell their products in large quantities. To keep a high level of production is not simple. For example, Japan, a very successful industrialized country, has very few natural resources such as oil and coal and has to import them from other countries in order to keep its industries going, and thus to supply needs at home and also to export its goods to overseas markets.

1. Japan, a successful country,
 - 1) is not industrialized
 - 2) doesn't have many natural resources
 - 3) does not import anything from other countries
 - 4) does not export anything to other countries

2. In order to keep its industries more active, Japan
 - 1) produces its goods
 - 2) exports its production
 - 3) imports coal or oil
 - 3) protects large factories

3. The economic health of a country depends on its
 - 1) natural resources
 - 2) diplomacy
 - 2) industry
 - 4) education

4. The word "supply" in line 7 is the closest in meaning to
 - 1) perform
 - 2) protect
 - 3) produce
 - 4) provide

(4)
